OMEGA COMPLEX

CHAPTER 12

Excerpt from Professor McNamara's notes on The Omega Project

BLAZAR:

Even though Pulsar is the highest natural rank in the hierarchy of the Order of Omega, it is possible to gain even more power. When a knight of the rank Quasar (such as Stigma or Sho) uses a bio-organic weapon that can generate an energy equivalent to that of a supermassive black hole (such as Durandal), he can potentially reach the power of a Blazar, which is equal to about a thousand billion times the energy of the Sun. It is said that the explosion of a Blazar can lead to the destruction of a universe.

DURANDAL, THE 7TH SWORD OF THE SHO CLAN:

Durandal is the most powerful sword among the seven bio-organic weapons created by the Epsilon Knight for the Sho clan.
Once mastered, it can release an energy equivalent to a supermassive black hole. A knight of Quasar rank can then reach the level of a Blazar.

Its name was given in reference to the sword of Roland, a character from medieval literature.
According to the legend, Roland tried to break Durandal on a rock so that it wouldn't fall into enemy hands. Failing this, he then invoked the power of the archangel Michael to throw it with all his might towards the valley. Only the rocks of Rocamadour, where the sword was planted, were able to stop its journey.

In reality, the knight Sho no Kotaro, conscious of the danger of such a power, decided to destroy Durandal no matter what it would take. Failing this, he decided to make it disappear by implanting it in the body of his own daughter: Sara the Black.

Having been searched for by Wood and Stigma for years, Durandal is one of the keys of the Omega Project…

PROFESSOR WOOD.
TOKYO, 1960.

Do you really think he will be able to cure Uryu-san? He has already tried to treat my niece without any success
Sorry to disturb you Madam. The American doctor has come back.
Good tell him to come to the garden
First his mother, now his sister... That cursed nuclear bomb!
Doesn't matter. That professor will take that little bastard with him and misfortune will leave our family for good. I had already told you that your sister would bring us tragedy by giving birth to the offspring of an American soldier!

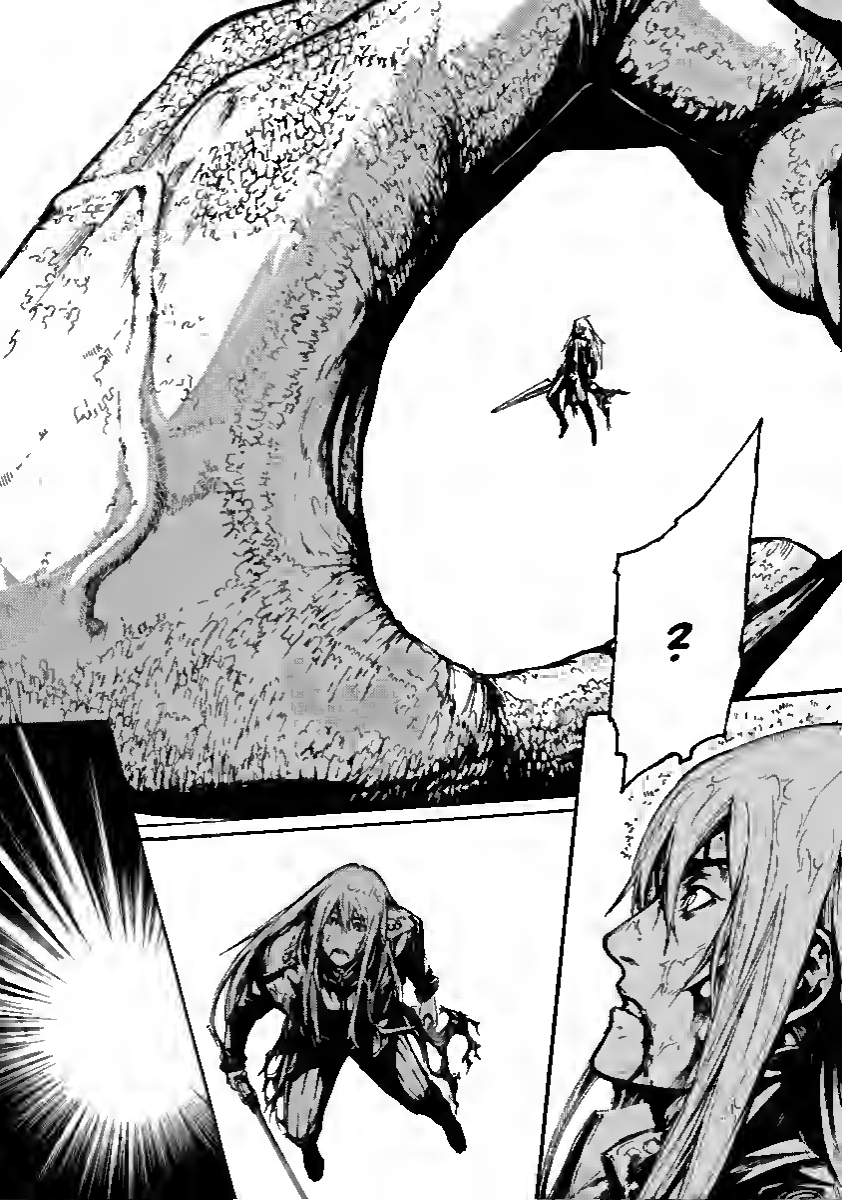
Please accept my condolences for your sister. I've also lived through the loss of a loved one, so I understand.
Were you in Hiroshima during the bombing? Have you been irradiated and condemned from your birth, like my sister and me?
Uryo-san...?
No. I haven't lived all that. But I can prevent it from happening again. Together, we can create a better world, where you won't have to say goodbye to the people you love.
Me neither, Uryo-san. But I can tell you about the Omega Project. If you let me treat you, I will turn you into the central pillar of a new world, under the name Stigma!
Sorry, I don't believe in paradise, Mr Wood.

STIGMA!
WAAM

GRU...

BAM
...!

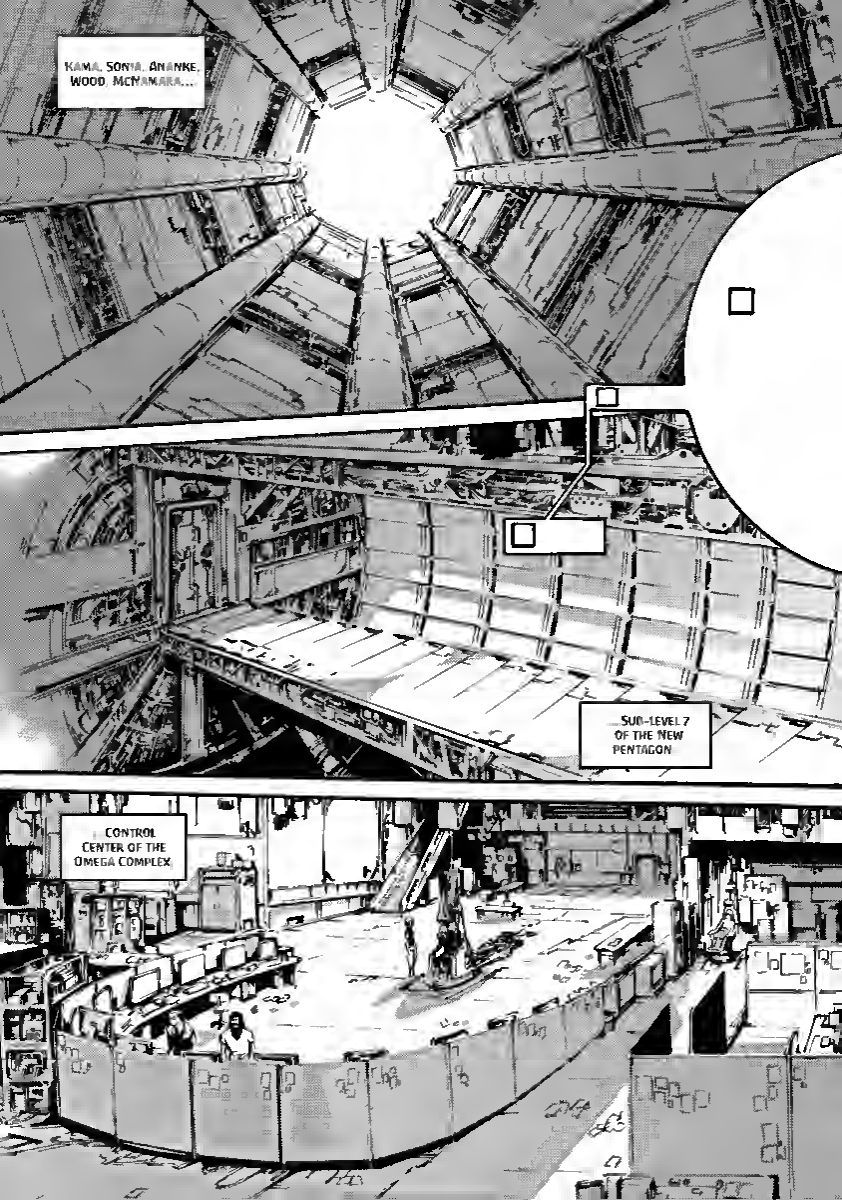
YAAAA!



Why?

BROM
When you transformed, your silicium armor broke and you lost your protection against my gamma rays. You knew that.
Ha ha ha! You have become perceptive. To reward your efforts, I will tell you how to save your loved one...

The Omega Project is the way towards a heavenly paradise...
My mission for years was to find and liberate them. It's finally finished. Sorry for this farce, but some evils are necessary, don't you agree?
But to open its doors two huge powers are needed
If you want to see Sara again, use my pass and take her to Wood with the silicium nanotubes



KAMAL, SONIA, ANANKE, WOOD, MCNAMARA...
SUB-LEVEL 7 OF THE NEW PENTAGON
CONTROL CENTER OF THE OMEGA COMPLEX

I don't understand. Decoding their DNA won't treat their wounds!
That's important for later...
TAC
My wife is dead, and no blood birth can bring her back to life. But if I don't act, Mind Corp will completely wreck this planet and a good part of the universe 150 years later.
So, will you sacrifice our era to save yours? Won't you become the same monster you wanted to fight?
Later? Like sending your demon army to the future to exact your revenge?
YOU'RE STILL MOCKING US! ONCE YOU TREAT MY FRIENDS, I WILL KILL YOU WITH MY OWN HANDS!
What's this nonsense, Dad? Why don't you simply confront Mind Corp in 2140... or change the past to influence the future?
Ananke...

CLANG
Oh, it's about time.

If you cooperate, it's highly likely Pat Sara in Kama's place and regenerate her Gray with your 6th sword, Marmadoise
Sara died to let me become a Blazar. Apparently this was also part of your plan. I have your damned silicium nanotubes so... Can the Omega Project bring her back to life, Wood?
WAIT, YOU CAN'T JUST DO AS HE SAYS! I'M SORRY FOR SARA, BUT YOU ABSOLUTELY CAN'T LISTEN TO MY FA...
THUMP

McNamara help Sho please
HAVE YOU GONE MAD? WON'T YOU EVEN DEFEND YOUR OWN DAUGHTER?
Ananke, I'm sorry for everything you had to endure because of me. If I could arrange everything, I would
Then do it, Dad...!

I know you didn't kill Mom! I played Mind Corp's game because I wanted them to send me back in time so that I could find you. I couldn't believe those stories about the Omega Project!
Dad... You can still stop all this! Let's reconstruct the world together.
OK. I will... try.

Sha, I would like you to enter the cylinder, with Durandal and the silicium nanotubes
McNamara, copy Sara's DNA sequence
Once inside, wait for my signal and intensify your Blazar to the maximum
Do you want to go to the future? Do you really think we will quietly let you execute your plan?
The past? It's impossible! We need a black hole at the other end of the tunnel for that!
No, not to the future, but to the past, to rectify the situation before I change history

The Omega Project started in '60s. I was working with Kama's father to reconstruct my machine, and we had succeeded in creating a single artificial black hole
Before betraying me years later, Adam Manhattan stole the space-time coordinates of this little experiment from me
That tattoo... is the black hole's coordinates?
to ensure that I would never be able to use it as a landing point for an Einstein-Rosen bridge
However, that secretive guy had coded them into a tattoo on his son's face!
With this, we can go back to 1963, kill Kennedy and prevent the nuclear war!

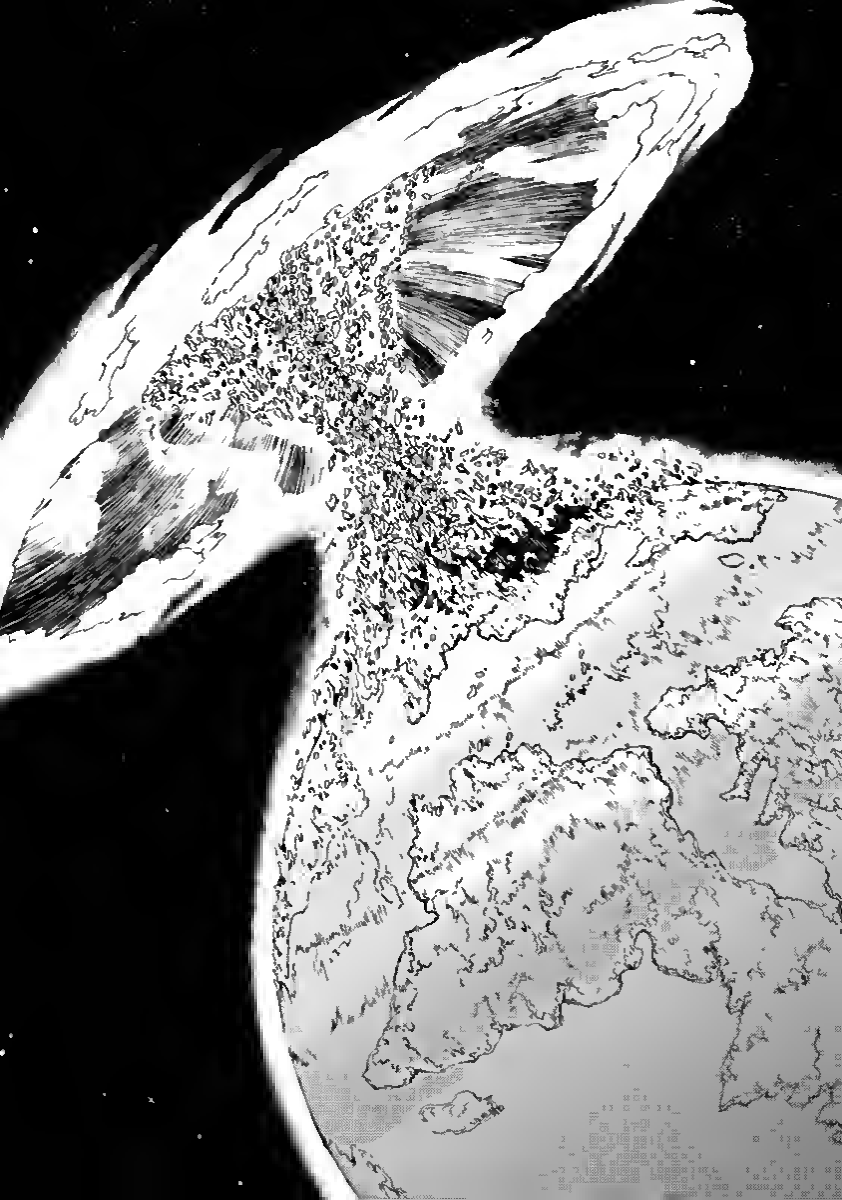
Go to the bottom of the cylinder but stay on the walkway
And what should I do after that, Wood? Wait for coffee?
Whatever you want, Sho as long as you intensify your Blazar. The silicium armor will enable you to do that without exploding and we will use the energy to activate the cylinder in extreme rotation
I don t have a return ticket do I?
If they succeed, you will never have to return anyway...

So be it
Ananke will see to it
OK Just tell Kama that he shouldn t miss Kennedy as I would hate to be playing the hero for nothing
VRRRR

Hmph... It looks like... I missed a big part of the show, right?
Not at all, don't worry. We'll just go on a little journey.
Sonia will be all right, that I promise.
I hope your plan will work... or I'll finish you myself
Have a nice journey.

According to my father we must arrive one month before the day "I"
Perfect, we will have time to get to know each other more!
Are you the one who has to save the world, really?

BANG
WHA... WHAT'S HAPPENING??? WHY...
YOU... YOU HAD FORESEEN EVERYTHING, IT WAS A GODDAMN TRAP! BUT WHY DID YOU SEND THEM TO 1963?
...
My God, no



You'll save the world isn't that enough for you?

WAKE UP! IT'S NOT THE TIME TO SLEEP, DAMN IT!
ANANKE! ANANKE!!!!
But... Why are we still alive? Didn't... Didn't you kill him?
But of course I did! Three "magic" bullets, just as you had told me! He's dead, for that matter...
AN... ANANKE!
KAMA... IF KENNEDY IS DEAD... I... YOU... WE CAN'T BE HERE! WE CAN'T EXIST IN THIS REALITY! EXCEPT IF WE GOT IT ALL WRONG FROM THE START...
...AND IF CHANGING THE PAST DOESN'T HAVE ANY INFLUENCE ON THE FUTURE, THERE'S NOTHING ELSE THAT CAN BE DONE! THE UNIVERSE WILL BE DESTROYED!
Don't worry, little baby! Look at the good side of things, if what I do in this era doesn't influence the future, I guess I can finally...
Oh well... Such big words right away!

KAMA AND ANANKE.
FRIDAY 22 NOVEMBER 1963.
DALLAS, TEXAS. 12 38.
It won't be a problem for you anymore if I use my powers, right?

FIIIIIRE!
BLAM
BLAM
HA HA HA!
That's enough Kama. It's useless
BLAM
BLAM
SLASH

That voice... Wood?
I'm happy that your future parents will listen to my advice, your name is an original one.
Don't be so impatient, dear
Dad? How... How can you know... about us?
But Sir, they just
Shut up, do as we say
The Communist, Lee Harvey Oswald...
Thank you for your collaboration Gentlemen. It's time for you to reveal to the world the assassin of our dear president.

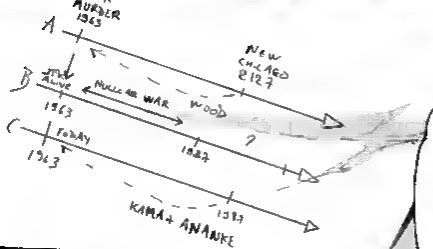
What's happening here? He can't have followed us from 1987 right?
This doesn't make sense. Kama killed Kennedy! I shouldn't even be here... And the Wood from this era can't know who you are!
HURRY UP, BEFORE I FINISH YOU. THIS TIME, THE HISTORY WILL BE CHANGED FOR GOOD!
Drink this, it's a morphine-based tablet. It should allow you to listen to my explanations
Ananke. I've always let our friends from Mind Corp believe that the universe was unique, that changing something in the past would affect the present. That was wrong. You can do whatever you want in 1963
Nothing will change in 1987, even less so in 2140!
Pfff... You still don't understand?

To put it simply, you agree that at each instant of your life, you make a precise choice between A or B or C... Doesn't matter

Your universe is completely unique and stable in space-time. Let's take the example of Kennedy's murder

That's impossible... You proved yourself that the theory of multiverses was nonsense. You always told me that physically, no more than one universe could exist at a time!

That is indeed the case if you look at things in their entirety. But from the point of view of each of us, there is an infinite number of potential universes.



In the universe where I come from, which we will call "A", Kennedy is well and truly assassinated in 1963 and the atomic war didn't happen. No matter what happens, "A" will always stay like that. But by saving Kennedy during my time travel, I created a universe "B" where Kennedy isn't dead, the world with the atomic war from which you come. Kama

Err... OK... So?

We have been tricked from the start... But this doesn't explain how you could be waiting for us, Dad.

Thus, going back in time serves to create an alternative universe. However, you can never modify an existing universe because with each change, you create a new one!

Every human being lives a in single and unique universe from his point of view, and with each new choice, he discards an infinite number of other potential universes

...BUT I QUICKLY UNDERSTOOD THAT IT WOULD BE USELESS. MY STUDIES CONFIRMED THE THEORY OF MULTIVERSES. THERE IS AN INFINITE NUMBER OF UNIVERSES IN NUMEROUS DIMENSIONS WHICH COEXIST ON DIFFERENT PLANES OR "BRANES"

GOING BACK IN TIME IS PASSING FROM ONE BRANE TO ANOTHER, ARRIVING IN A NEW UNIVERSE WITHOUT CHANGING THE ONE BEFORE

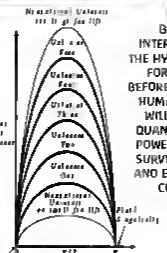
I HAD TO LEARN MORE. AFTER DOING A LOT OF RESEARCH, I CAME ACROSS A THEORY FROM LATE 20TH CENTURY, THE THEORY OF THE OMEGA POINT

THE OMEGA POINT IS A TERM THAT PHYSICIST FRANK TIPLER USES TO DESCRIBE A TIME FAR IN THE FUTURE, WHEN THE UNIVERSE WILL REACH ITS MAXIMUM EXPANSION AND WILL BE TOTALLY DESTROYED BY THE BIG CRUNCH, THE FINAL COLLAPSE.

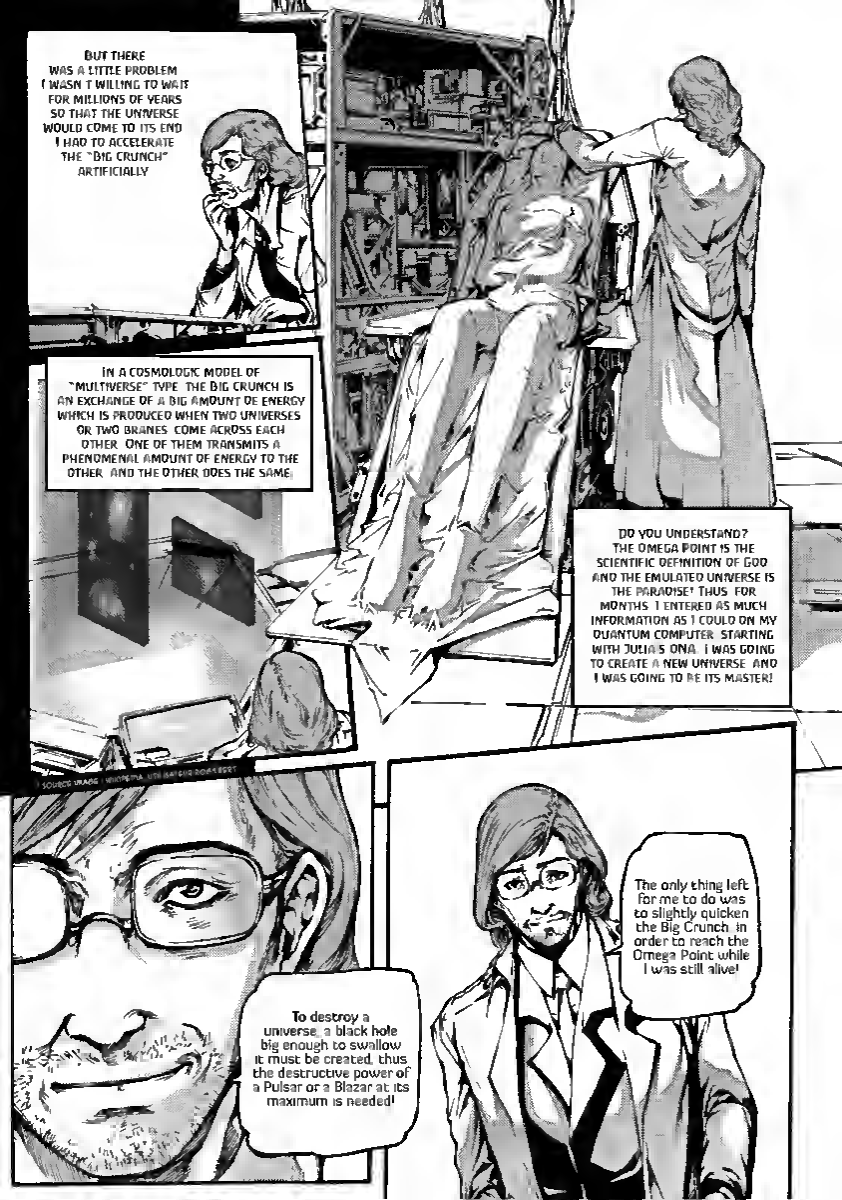
If you are here, it means my plan was a success and the world of 1987 has certainly collapsed

When your mother died, I was deep in sorrow. Julia was a good wife, and she didn't deserve this. I decided to hijack the initial use of the machine that the company had made me build. I wanted to go back in time to save my wife...

* SOURCE : "THE PHYSICS OF IMMORTALITY" DE FRANK J. TIPLER



BUT THE MOST INTERESTING POINT IS THE HYPOTHESIS HE PUTS FORWARD. IN THAT BEFORE THE BIG CRUNCH HUMAN INTELLIGENCE WILL HAVE CREATED QUANTUM COMPUTERS POWERFUL ENOUGH TO SURVIVE THE COLLAPSE AND EMULATE ALL PAST CIVILIZATIONS!



BUT THERE WAS A LITTLE PROBLEM I WASN'T WILLING TO WAIT FOR MILLIONS OF YEARS SO THAT THE UNIVERSE WOULD COME TO ITS END I HAD TO ACCELERATE THE "BIG CRUNCH" ARTIFICIALLY
IN A COSMOLOGIC MODEL OF "MULTIVERSE" TYPE THE BIG CRUNCH IS AN EXCHANGE OF A BIG AMOUNT OF ENERGY WHICH IS PRODUCED WHEN TWO UNIVERSES OR TWO BRANES COME ACROSS EACH OTHER ONE OF THEM TRANSMITS A PHENOMENAL AMOUNT OF ENERGY TO THE OTHER AND THE OTHER DOES THE SAME
DO YOU UNDERSTAND? THE OMEGA POINT IS THE SCIENTIFIC DEFINITION OF GOD AND THE EMULATED UNIVERSE IS THE PARADISE! THUS FOR MONTHS I ENTERED AS MUCH INFORMATION AS I COULD ON MY QUANTUM COMPUTER STARTING WITH JULIA'S DNA I WAS GOING TO CREATE A NEW UNIVERSE AND I WAS GOING TO BE ITS MASTER!
SOURCE IMAGE : WIKIPEDIA, LES AMAS DE GALAXIES
To destroy a universe, a black hole big enough to swallow it must be created, thus the destructive power of a Pulsar or a Blazar at its maximum is needed!
The only thing left for me to do was to slightly quicken the Big Crunch in order to reach the Omega Point while I was still alive!

OUR... OUR UNIVERSE, OUR REALITY, WAS NOTHING BUT... AN EXPERIMENT? NOTHING BUT YOUR CATTLE?
You came back to the past only to create humans capable of reaching that level?
Exactly! I didn't have enough technology to artificially create sub-atomic energy I needed a method that was less orthodox
No need to panic. At the end of time everyone will be reborn in the emulated world...
PLAK
SHUT IT!
STOP, KAMA!
He has already won and we are playing his game. he knew all this would happen... Getting angry won't solve anything now. It's all over!

IT'S ALL OVER, SO I MIGHT AS WELL KILL HIM, RIGHT?
Your presence in my era means that the future me did what needed to be done to send you here. Moreover, he must have used the energy of a Blazer to make the machine function...
Kama, if what he says is true our universe and all the people we know are already dead. Plus you represent an energy exchange from the other universe to this one. We are the last piece of the Omega Project!
HUH... WHAT? BUT THIS DOESN'T MAKE SENSE, WE HAD TO COME TO 1963 TO...
Change the past? Save the future? And who advised you to do this?
Bingo. In your opinion, what would happen if Kama became a Pulsar right now? This universe would go "Boom!" and this explosion, together with that of Sho in 1987, would lead to the Big Crunch!

POW

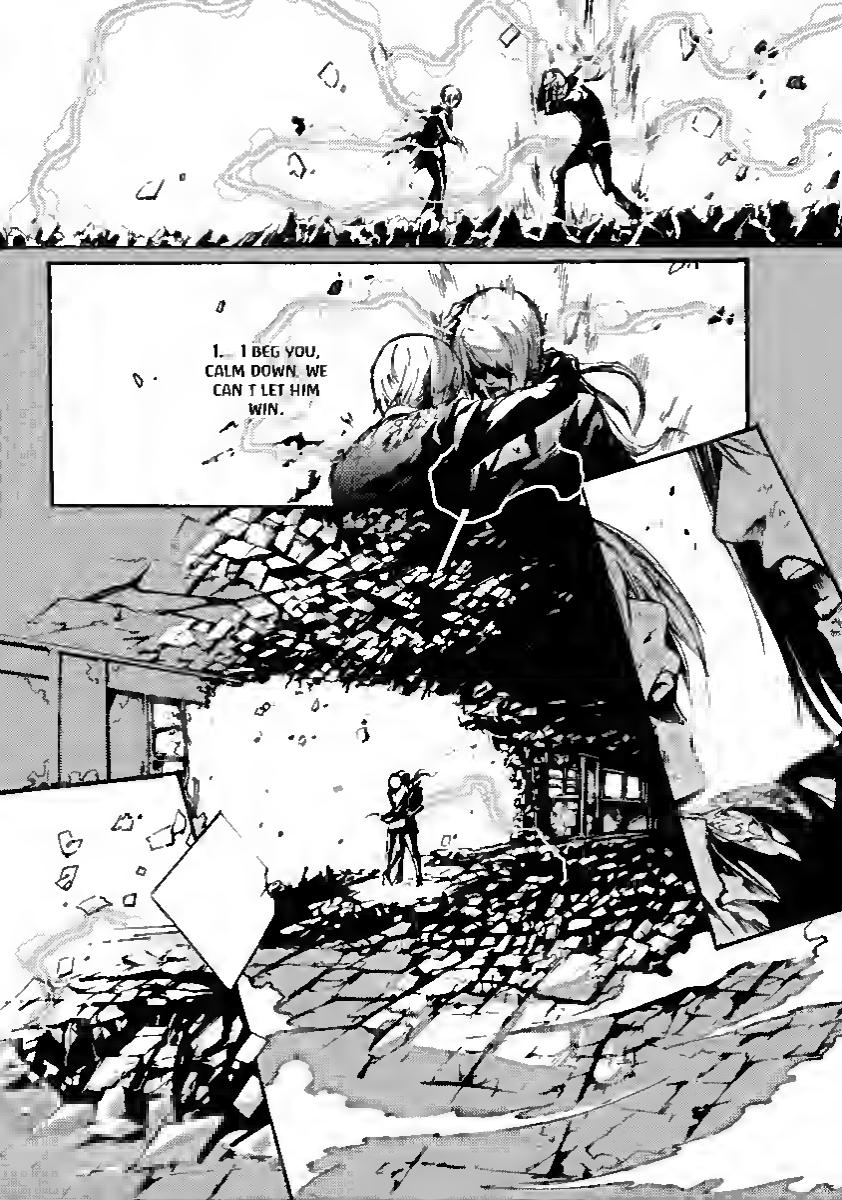
DAD!

ARGGGGGGH!
NO... WAIT!



I... I BEG YOU, CALM DOWN. WE CAN T LET HIM WIN.

My memory
When I was about to turn into a Pulsar some flashes came back
Sorry Ananke.. I almost caused everything to go to waste
It's okay. We'll make it through together
ANGIE!
WHO?

PUSH
Kama...!
ANGIE, SHE... SHE DIED BECAUSE OF YOU! YOU ACTIVATED THE TSAR BOMB!
IS THIS WHY YOU ERASED MY MEMORY, ALL MY FEELINGS?
No... I... I really care about you and
SHUT IT!
